**RE: Program #0555**

**Previous Accreditation Status: 8 Years**  
**Most Recent Site Visit: 02/2023**

Dear Dr. Swayne:

The Joint Review Committee on Education in Radiologic Technology (JRCERT) conducted an unannounced site visit of the associate degree radiography program sponsored by North Idaho College. The JRCERT is the only agency recognized by the United States Department of Education (USDE) and the Council for Higher Education Accreditation (CHEA) for the accreditation of traditional and distance delivery educational programs in radiography, radiation therapy, magnetic resonance, and medical dosimetry. Specialized accreditation awarded by the JRCERT offers institutions significant value by providing peer evaluation and by assuring the public of quality professional education in the radiologic sciences.

The continuing accreditation status of the program was considered at the June 13, 2023 meeting of the Joint Review Committee on Education in Radiologic Technology. The program was evaluated according to the **Standards for an Accredited Educational Program in Radiography (2021)**. The JRCERT awards:

**PROBATION.**

Consistent with JRCERT Policy 10.100, this accreditation action is not subject to appeal.

The Committee based this decision on areas of non-compliance with **Standards One and Two:**

**Objective 1.7** - Lack of assurance that the sponsoring institution and program comply with the requirements to achieve and maintain JRCERT accreditation.

Consistent with JRCERT Policy 11.400, sponsors of radiologic sciences educational programs must be accredited by an agency recognized by the United States Department of Education or the Council for Higher Education Accreditation or equivalent. It is noted that the Northwest Commission on Colleges and Universities (NWCCU) conducted a comprehensive evaluation of the sponsoring institution on April 17-18, 2023, and the NWCCU Board is scheduled to take action at the June 20-23, 2023 meeting. The JRCERT requests the outcome of the visit no later than **September 1, 2023**.

**Objective 2.1** - Lack of assurance that the sponsoring institution provides appropriate administrative support and demonstrates a sound financial commitment to the program.

Nick Swayne, Ph.D.

Page 2

Therefore, a progress report documenting compliance with these objectives is required by **September 1, 2023**. The progress report must be submitted via the JRCERT Accreditation Management System (AMS) and will be considered by the Board of Directors at the next available meeting after submission. Based on evaluation of the progress report, the Board of Directors will determine the appropriate accreditation action. An additional progress report may be required if the objectives are not adequately addressed.

The previously requested interim report is no longer required.

Consistent with JRCERT Policy 11.400, the maximum compliance timeframe is 36 months. Based on the areas of non-compliance, the Board of Directors are awarding a 24-month compliance timeframe. Therefore, the program must document compliance with all accreditation standards no later than **June 13, 2025**.

As required by the USDE and consistent with the **maximum** compliance timeframes set forth in JRCERT Policy 11.400, when the JRCERT Board of Directors determines that a program has failed to document compliance with the **Standards** and has not satisfactorily addressed the identified deficiencies, the existing accreditation status will be withdrawn. Such involuntary withdrawal of accreditation is considered an adverse accreditation action. The JRCERT defines an adverse action as involuntary withdrawal of accreditation. Involuntary withdrawal of accreditation will generally, but not necessarily, occur after a Probationary Accreditation status has been awarded. The Board may take adverse action prior to the expiration of the maximum compliance timeframe. Probationary status, as well as an adverse accreditation action, requires written notification to the United States Secretary of Education, the appropriate State licensing or authorizing agency, appropriate regional and/or other accrediting agencies, and the public.

Probationary Accreditation is an accreditation category and, consistent with JRCERT Policy 10.100, this action is not subject to appeal. Consistent with JRCERT Policy 10.700 (enclosed), the program must notify currently enrolled and accepted students, as well as the public via a website posting, of this status within 30 days of receipt of this letter. The program is required to submit a representative sample of such notification and list of recipients to the JRCERT no later than **July 20, 2023**.

The program is advised that consistent with JRCERT Policy 11.600, the JRCERT reserves the right to conduct unannounced site visits of accredited programs. The sponsoring institution would be responsible for the expenses of any on-site evaluation.

The Joint Review Committee on Education in Radiologic Technology Directors and staff encourage you and the program faculty to continue your efforts in developing a quality educational program. If we can be of further assistance, do not hesitate to contact the office.

Sincerely,

Tracy Herrmann, Ph.D., R.T.(R), FAEIRS  
Chair
