

# North Idaho College

## RADIOGRAPHY TECHNOLOGY PROGRAM ADVISING / INFORMATION SHEET

# X-Ray

### Special considerations to keep in mind:

**It is the student's responsibility to meet admission requirements.** A student may keep informed of the program requirements by reading the current catalog and keeping in touch with the Radiography Technology program for information on any possible changes in the program or its prerequisites.

Please be aware that because of the high number of applicants for this program, the completion of all prerequisites does not guarantee admission into the program. The selective admission process used involves points for relevant course work at the time of application. The Radiography Technology program application can be found on the program website at <http://www.nic.edu/programs/viewprogram.aspx?landing=66>. Upon receiving the Radiography application, the clinical observation evaluation forms will be mailed out to the applicant.

Upon acceptance into the Radiography program, a criminal background check will be required for participation in clinical rotations. Violations which appear on the background check may result in denied access to clinical sites and, therefore, inability to complete the radiography program. If the student has any convictions of a crime including a misdemeanor or alcohol and/or drug violations, it is recommended that the student contact the American Registry of Radiologic Technologists® ethics department at (651) 687-0048 for further information.

A high school diploma or GED is required at the time of application to the program.

Placement test scores used to meet course requirements must be no more than 2 years old at the program application deadline.

Prior to clinical rotations, students will be required to obtain proof of student professional liability insurance and a valid up-to-date CPR card in basic cardiac support for health care providers.

The minimum GPA of 2.5 for program eligibility will be calculated on courses which meet degree requirements for the A.A.S. in Radiography (listed on the back of this sheet). All degree coursework must be completed with a C (2.0) or higher. For additional information on the point selection process and points for repeat coursework please refer to the student selection link on the Radiography program web site at <http://www.nic.edu/programs/viewprogram.aspx?landing=66>.

# RADIOGRAPHY TECHNOLOGY PROGRAM

**Courses that must be successfully completed by August 1<sup>st</sup> prior to admission to the Radiography program:**

\_\_\_\_\_ Math 025 (Elementary Algebra)

**note**

Competency may be demonstrated by: ACT, SAT or COMPASS score taken in the 2 years prior to the program application deadline indicating placement above Math 025

**OR**

Completion of Math 025 or Math 108 or a math class meeting the A.A.S. degree math requirement as listed in the NIC catalog with a grade of C (2.0) or higher

\_\_\_\_\_ BIOL 227 (Human Anatomy & Physiology I)

\_\_\_\_\_ BIOL 228 (Human Anatomy & Physiology II)

\_\_\_\_\_ CAOT 179 (or an approved Medical Terminology course)

**Additional courses taken during the Radiography Program that may be completed prior to admission to the program:**

\_\_\_\_\_ COMM 101 (Introduction to Speech Communication)

\_\_\_\_\_ ENGL 101 (English Composition)

\_\_\_\_\_ MATH 143 (College Algebra or an approved A.A.S. math requirement substitution or higher)

\_\_\_\_\_ PSYC 101 or SOC 101 (Introduction to Psychology/Sociology)
