Policy Narrative

[Page 1 of 1]

The board of trustees acknowledges the importance of meeting its responsibilities as a body of elected officials for effective institutional governance.

To this end, the board of trustees may conduct a performance review of its stewardship regularly, but no less often than every two years. The intent of this board review should be to strengthen its performance, identify and reach consensus on its goals, ensure board members have a clear grasp of their responsibilities, and clarify expectations among board members and the president.
