We have had several reports Mr. McNearney has been on campus numerous times in the past 6 months. He has “befriended” several staff members who thought he was a legitimate Medical Student. Medical Staff Services have confirmed this as well as further investigation from the Security office. He has a criminal background out of Nevada for assault and domestic violence. We were advised by the Police Department in Nevada that he has an extensive history of being in and out of Mental Institutions and Jail for domestic violence and impersonating a Medical Student, Doctor and Helicopter Pilot\*. They do not feel he is a physical threat but he can become highly agitated and aggressive.

Mr. McNearney has been advised he is NOT to be on KMC Campus and that he will be arrested if he comes back. The KMC Security Department and Coeur D’ Alene Police Department have both trespassed Mr. McNearney from our campus.

Please call KMC Security via Hospital Operator if McNearney is seen.

DO NOT Contact him on your own.
