

Important Health & Safety Information

Bed Bugs are a real concern for everyone in the United States right now. They are an invasive species that are extremely difficult to contain and destroy. Colleges, multi-housing complexes, hotels and residential areas are now working very hard to try to contain and eliminate these pests.

So in an effort to keep the NIC Residence Hall safe and clear of these pests,

ALL INCOMING FURNITURE WILL BE INSPECTED PRIOR TO BEING ALLOWED INTO THE RESIDENCE HALL.

This includes, but is not limited to, couches, arm chairs, mattresses, futons, etc.

NIC Residence Life has the right, and responsibility, to deny entry to any piece of furniture that has evidence of bed bug activity.

Courtesy of the National Pest Management Association

We ***HIGHLY*** recommend that you have ANY furniture that you are planning on bringing to the residence hall, be thoroughly checked by a local pest control professional – to ensure that it is clean and safe for use in the residence hall. A clean bill of record will be ***required*** to skip the inspection process.

We truly appreciate your cooperation efforts to maintain a healthy environment for the 200 other community members in the building. With a collaborative effort, we can make sure that these pests are kept outside the walls of our building.

If you have any further questions, please contact Paula Czirr, Residence Life Manager, at pmczirr@nic.edu, cell – 208-699-5124, or office – 208-769-5932.
