North Idaho College Campus Recreation Internship Program

Program Overview:
The goal of our internship program is to develop recreation professionals by immersing them in an intense, hands on experience. We are devoted to creating an environment through which our interns will grow professionally and personally.

Student Wellness and Recreation Center Facility Operations Internship:
As an intern with an emphasis in Facility Operations, you will be assisting our transition into year two of our new Student Wellness and Recreation Center. This multi-purpose facility engages our campus community through recreational, wellness, and educational opportunities. Your duties will include assisting with facility operations and management, marketing, employee training, equipment maintenance, special event management and student development.

Terms and Compensation:
Stipend: Interns will be paid $3,000 over the course of the internship.
Housing: Housing is provided.

Intern Requirements:
Minimum Qualifications – Interns must be:
- Pursuing a degree, requiring an internship within its curriculum
- Knowledgeable about campus recreation programming and/or campus recreation facilities
- An excellent communicator
- Able to work flexible and often long hours
- Able to lift and carry heavy objects weighing up to 75lbs

Applications:
Interested students are encouraged to send a letter of intent and resume to Jess Bennett, Director of Student Wellness and Recreation, jessica.bennett@nic.edu. For further details, please call 208-769-3299.
